#### VISIT TO LIBERTY.

It was our pleasure, for the first time, to visit Liberty last week, to meet the good people of that town and from various parts of the county who were drawn there by the attractive features of the Liberty Fair. The Fair was a success in every particular, the association coming out a head at least 25 per cent, while no complaints were made by exhibitors. The first day a good crowd was out, but the down pour of rain in the early afternoon delayed business. The second showed at least 2,000 desirous to see the shows and mingle with their friends, while the third, which was the last, was not quite so good in attendance. The very best order prevailed, there being no disturbances whatever. As above stated, it was our first visit and was made for no other purpose than to meet our few friends and acquaintances, to expand the same, if possible, and to broaden our knowledge of that town, the people and resources. It was one of the most pleasant visits that has ever been ours, and to be plain and strictly truthful, will say that heretofore we had far underrated the resources of both town and county, this being due to a very limited knowledge, but to-day we see Casey county in a different light. Her broad bottoms along Green river and tributaries, the fertile uplands which yield abundantly to intelligent management, the pure springs that bubble from the hills, her magnificent forests—a land dotted with beautiful country dwellings, indicate a prosperous, happy people.

Besides seeing the above and being impressed with the great productive powers of the soil, we were reminded of the county's worth and the inclination and character of the people by reason of the many churches and school buildings standing in the country, great white monuments to the moral and intellectual advancement. Heretofore we had been of the opinion that Casey county's bottoms were narrow, her uplands rough and non-productive, and her resources proportionately dwarfed, but the very reverse is true and in our judgment that county is capable of out-producing any of the hill counties along the Green river in agricultural products.

While Liberty is not a large town, yet it has a splendid courthouse and jail, both large, neat buildings; several church edifices, not surpassed in appearance by many towns of four times its population; good business houses including two hotels, a splendid bank building, livery stable, etc. The appearance of many beautiful homes, many of which have been built within the last few years, indicate that the spirit of progress is manifesting itself, and within a few more years, keeping its present rate of improvement, Liberty will be an old town made new, a small one made larger, a substantial one made more prosperous. Its location on the high east bottom land

affords good drainage, and there are many desirable locations for homes and business houses; but a good substantial bridge across the river at that place would add materially to the welfare of the town and the south side of the county. It is not the fertile uplands, the beautiful valleys nor the desirable homes that so much impresses the stranger as the intelligence and genuine hospitality of the people.

Southern Kentucky, not burdened with extreme wealth, has no aristocracy to land its claims over an honest, intelligent and industrious populace, but recognizes the noble virtues that bind heart to heart, community to community, and truly makes counties loving sisters. It is a hand-shake community, a pull the latch-string section, and in these particulars the people of Casey county are not an exception.

The many new acquaintances formed during our short visit, the special interest manifested by the members of the Liberty Band—making us their guest, could only serve to deepen our appreciation not merely for them, but the community of which they are a part. The striking characteristics of the Liberty people seem to be friendship, liberality and progress.

We trust that in the future the two towns, Columbia and Liberty, may be closer identified with each other's welfare, and that we may have the pleasure of further extending our acquaintance, and last, but not least, that in our particular sphere of work we may render some good to the people of Casey county.

We have never felt that the Republican papers were sincere in their denunciation of Governor Beckham on account of the pardons granted by him, but, regardless of facts, have made wholesale charges for no other purpose than to arouse sentiment against him for political purposes. They have asserted that Mr. Beckham has pardoned more murderers and bad convicts than any of his predecessors; that he is largely responsible for the lawlessness in the mountains. The Courier-Journal of last Saturday published the entire list of pardons granted by Governor Beckham, Ex-Govs. Bradley and Brown. It took a page and a half and shows that Gov. Beckham has released from State prisons just half as many as either Bradley or Brown; that Bradley released seven times as many murderers as Beckham, and Brown five times as many; that both Bradley and Brown released three times as many for manslaughter and five times as many life convicts as has Beckham. The list shows the names of prisoners actually released by pardons, and gives the names, the place received from, the term and date released. The record shows that Gov. Beckham has released 183 prisoners by pardon, Gov. Bradley 849 and Gov. Brown 302. Gov. Bradley released 56 life prisoners, Gov. Brown 51 and Gov. Beckham 11. Gov. Bradley released 72 for murder, 104 for manslaughter. Governor Brown 45 for murder, 101 for manslaughter. Gov. Beckham 10 for murder, 33 for manslaughter. The above, coming from the records, ought to silence the Republican press in charging Gov. Beckham with the "lavish" use of pardons. Such charges are without foundation and have no place nor purpose in this campaign than to mislead and create prejudice to advance political ends.

The argument in the Caleb Powers case closed at Georgetown last Friday night and after the jury had deliberated one hour they were released for the night. Saturday forenoon they brought in a verdict, fixing the defendant's punishment at death. Sentence was passed upon the condemned man November 25th was fixed as a day for his execution. A motion for a new trial was overruled and the case goes to the Court of Appeals.

One thing certain, Gov. Beckham has not pardoned a man before the crime was committed, neither has he stocked pardons in the pockets of men who were in a conspiracy to murder, the murder following the conspiracy. A great howl is being made about his pardoning Curtis Jett from a jail sentence after one-half of it had been served. But who asked that pardon? J. B. Marcum whom Jett afterwards murdered.

M. L. Jarvis, of Albany has announced himself as a republican candidate for Circuit Judge in the twenty-eighth district. There are four other candidates, one from Palazki and three from Whitley, L. D. Denham, of Williamsburg, is the best qualified man in the whole lay out. The convention will be September 12.

Do not lose an opportunity to hear Gov. Beckham and Hon. Ollie James speak. They will be at the Court house in Columbia Thursday the 10th. Hour of speaking 1 o'clock p. m.

We do not know Miss Wyatt but it is sufficient to say her father, Mr. Chandler's choice, she is the highest type of a lady. May their union be a long, happy and prosperous one is the wish of the writer, as it is of all their many friends and relatives of this city.
